

WORKING TOGETHER TO PRESERVE OMAN'S UNIQUE CORAL REEFS

**WHAT IS A
CORAL?**

**WHAT IS A
CORAL REEF?**

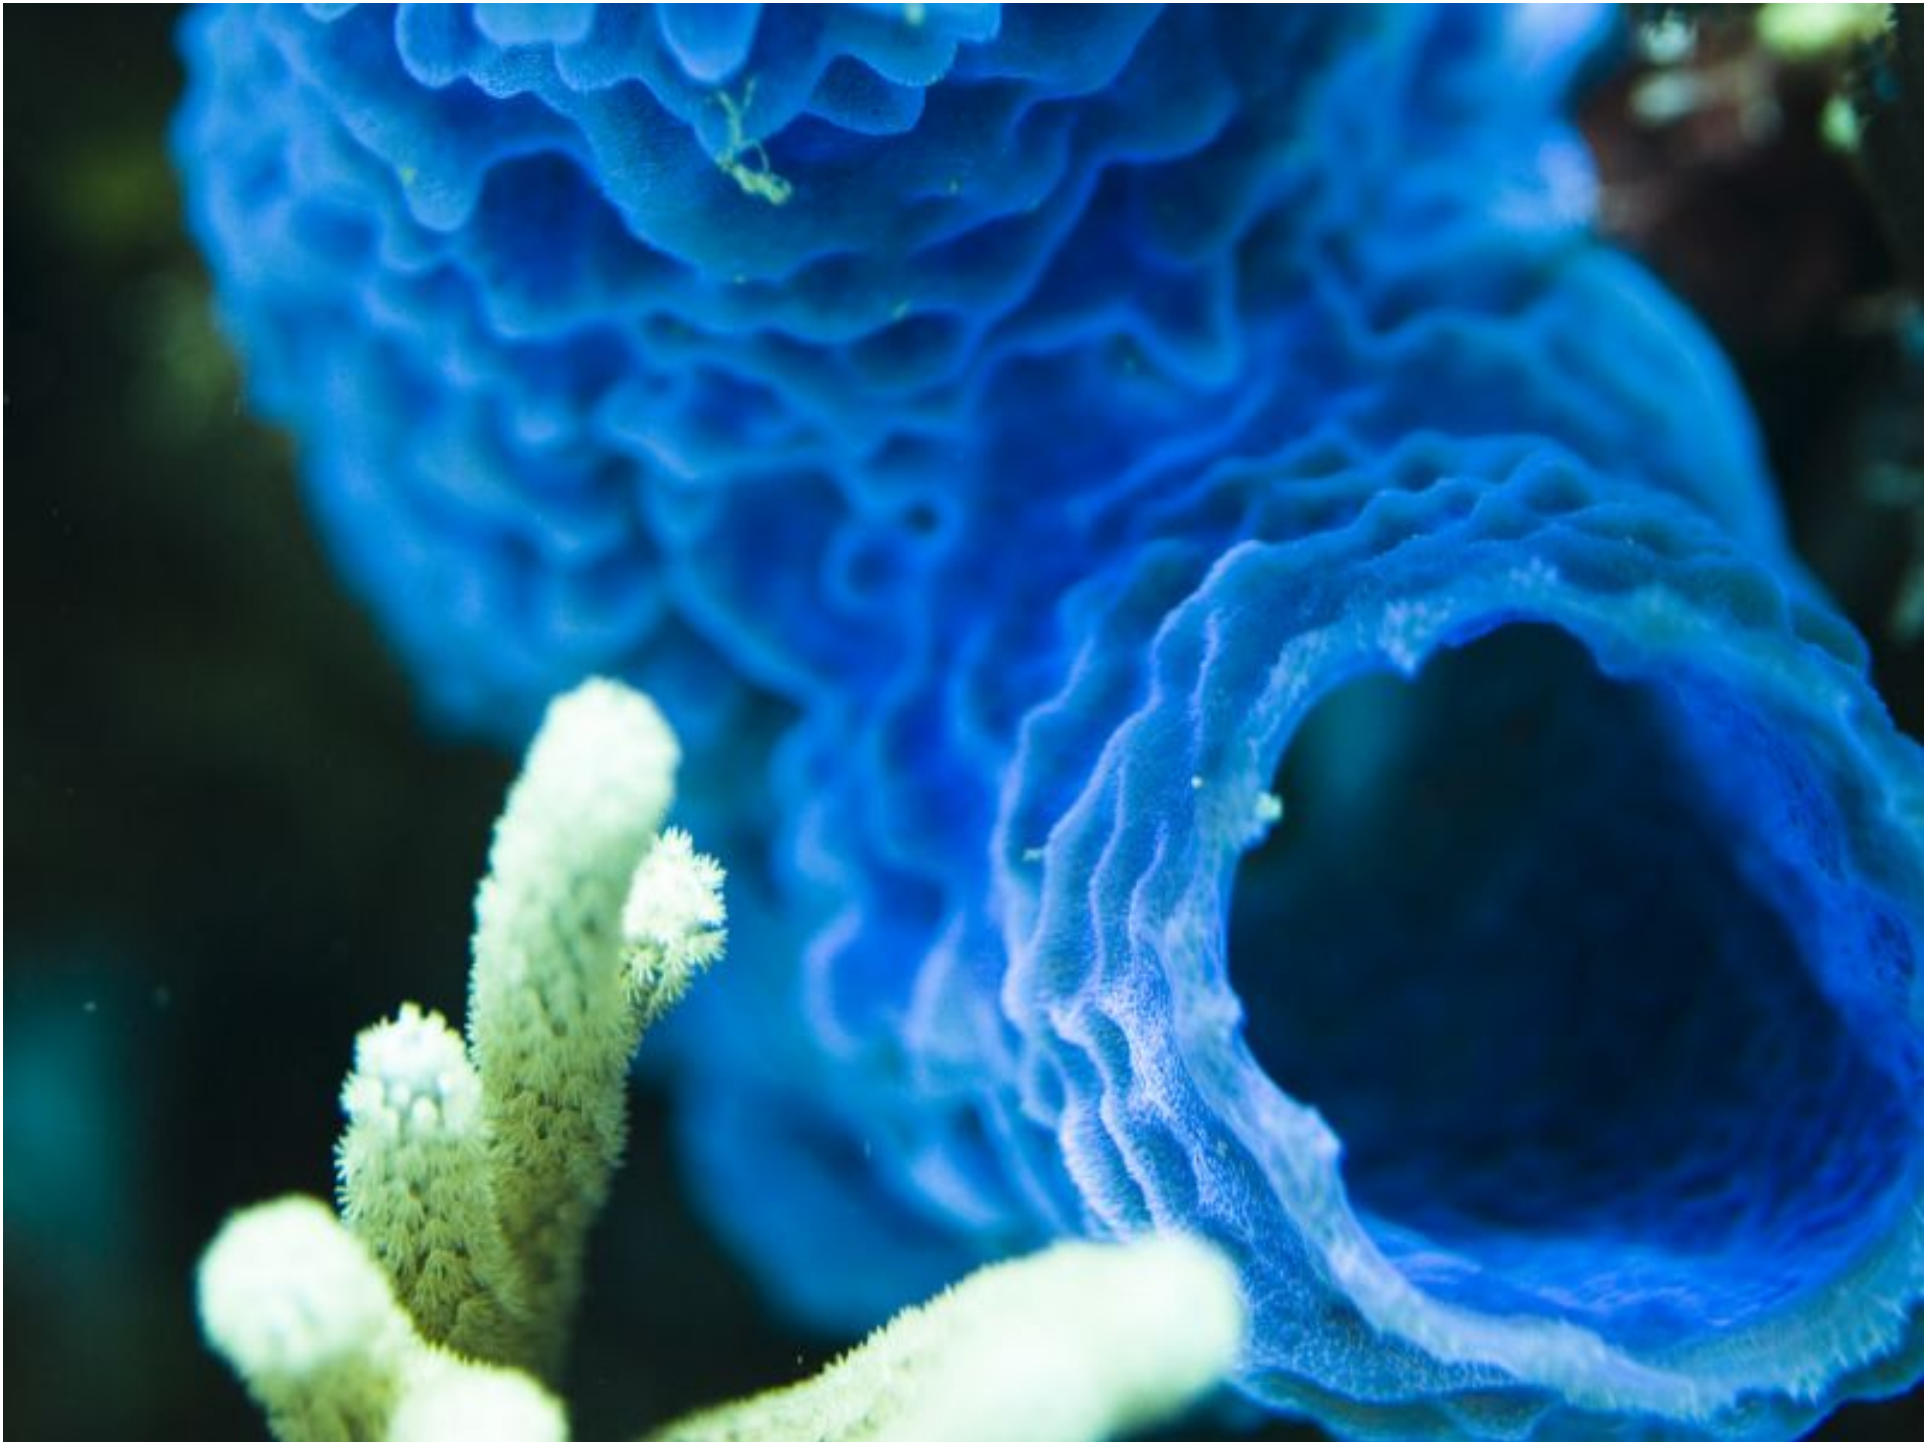

STUDYING A CORAL REEF

**HELPING TO
PRESERVE
CORAL REEFS**

What you can do

Visit established parks, pay the fee and snorkel there to experience and appreciate marine life yourself

Encourage others to do the same

Participate in cleanups – get your classmates or school involved too – never litter in the first place

Never purchase souvenirs made from coral, turtle or other marine life – this is often illegal and never environmentally wise

Speak up. Tell your friends & family about what you have learned and make sure they understand these simple but important rules
