Outreach drinks reception

Outreach drinks receptions are very informal events usually hosted by an expedition veteran. Everyone's invited to just turn up and we try to involve Biosphere Expeditions staff too wherever possible.

Drinks receptions are for people who have never been involved with Biosphere Expeditions and would just like to find out more in an informal setting. They are also for former expedition team members who would like to catch up again, or for those already signed up for an expedition who would like to get some tips before they embark on their adventure.

They are always held in a venue where you can chat in a relaxed and quiet atmosphere, i.e. no noisy bars 😊
